ALBADIL Natural Feed Factory — Overview

100% natural beef, dairy & poultry feed using Bio-Inoculation technology — the first of its kind in Egypt

100%

Natural & Safe

+10

Years Field Experience

85% – 95%

Nutrient Absorption Rate

88% +

Ideal Dry Matter

12 to 24

Months

Product Shelf Life

About the Factory

For over a decade, Mr. Ali Saleh transformed his field expertise in Kafr El Sheikh into a fully integrated bio-engineering feed facility using "pre-bio-inoculation" technology — never before applied in Egypt. The factory relies on pure, original raw materials (corn, soy, premium barley) with zero chemicals or artificial additives, with field and laboratory quality control on every production batch, and a technical support team of nutrition engineers accompanying the farmer from product selection through production results.

What Makes ALBADIL Unique

Pre-Bio-Inoculation

Integrating nutrients with beneficial bacteria and yeasts, raising absorption efficiency from 85% to 95%

88% Dry Matter Formula

Precise balance preventing spoilage and ensuring feed stability at 88% dry matter or higher throughout shelf life

Vacuum Packaging

To ensure a shelf life starting from 6 months and extending to 2 years, ALBADIL relies on a vacuum (air evacuation) system during packaging and sealing

Natural Functional Blend

Omega-3 and natural antioxidants from dates, oil seeds, and citrus — completely eliminating the need for chemical additives

Product Lines

Feeder Turbo

Beef Fattening Feed

Complete fattening cycle for maximum metabolic energy, muscle building, and ideal fat distribution

Starter	Protein 20%
Grower	Protein 18%
Finisher	Protein 16%

Feeder Gold

Dairy Feed

For high-yield cows and buffaloes, stabilizes rumen environment and naturally raises fat and protein content

Dairy 21%	Protein 21%
Benefit	Fat + Protein ↑
Category	High Yield

Feeder Pure

Poultry Feed

Bio-inoculated feed fortified with natural antioxidants for the lowest FCR and Omega-3 quality meat

Starter	Protein 24%
Grower	Protein 23%
Finisher	Protein 22%

Feeder Premium

Horse Feed

Ultra-pure balanced formula fortified with natural oils and antioxidants, designed to maintain digestive health, prevent colic, and support muscular and movement performance

Racing & Sport	Protein 13–14%
Breeding (Mares)	Protein 15–16%
Leisure & Weight (Classic)	Protein 11%
